Established in 2010, The Animal Recovery Mission (ARM), is a non-profit investigative organization dedicated to eliminating extreme animal cruelty operations worldwide. ARM stands out as a Vanguard and uncompromising defending force for the welfare of animals. In addition, ARM strives to put an end to, and preventing pain, suffering and torture as a result of inhumane practices.

The mission of the organization is to implement direct-action tactics to investigate, document and expose illegal activities of extreme animal cruelty. The organization's primary goals are to improve the quality of life for animals and to educate the public regarding animal cruelty, the practices that contribute to animal cruelty and the illegal animal slaughter. Achieving these goals contribute to an increased awareness of the unforeseen ethical, social and environmental implications of animal abuse and produce effective changes in the treatment of defenseless animals.

Animal cruelty investigations taken on by ARM operatives include, but are not limited to; animal slaughter farms, animal sacrifice operations, illegal horse sales and slaughter, and animal fighting operations. In addition, ARM is focusing upon the pressing issues and concerns of animal welfare within the animal agriculture and factory farming sector.

Since 2010, ARM's undercover investigations have led to the closure of up to 138 illegal animal cruelty operations in the state of Florida alone. The following report provides detailed findings gathered during ARM's investigation of a dairy farm located in Okeechobee Florida-known as Larson Dairy.
Between August and September of 2017 an ARM Investigator was hired by Larson Dairy Barn #5 as a dairy milker. The investigator was under the direction of Richard Couto, President of Animal Recovery Mission. The ARM Investigator was issued and utilized surveillance equipment (no audio) to capture the violations noted within this report. It should be noted that Larson Dairy was not specifically targeted. An investigator was sent to multiple dairy farms in Okeechobee County. Larson Dairy was the first farm to hire the investigator.

It was later learned, through an anonymous independent contractor, that Larson Dairy Barn #5 is the worst location he has ever been to. The contractor has witnessed brutality that is far beyond what he has witnessed at other dairies which he is contracted by as well.

Due to the following actions detailed below, the Animal Recovery Mission is requesting that Jacob Larson (Larson Dairy owner and location boss) be charged with a third degree felony. This is due to being a person who owns or has the custody or control of any animal and fails to act, which results in excessive or repeated infliction of unnecessary pain or suffering, or causes the same to be done, commits aggravated animal cruelty. In addition to this, charges are also being sought on Omar (foreman) and an unidentified hispanic male for tormenting any animal in a cruel or inhumane manner, commits animal cruelty, a misdemeanor of the first degree.

Upon being hired by Larson Dairy, the Arm Investigator was introduced to his shift crew. The overall supervisor of Barn #5 is Jacob Larson. The crew is supervised by a foreman, Omar. There are on average 3 milkers per shift. There are 2 shifts which milk 8 dairy cow groups 3 times a day.
Cows are brought into the milking barn by a “cow pusher” who retrieves them from their holding barns (where they spend 305 days a year). The cow pusher typically brings them in utilizing an electric cattle prod. The cow pusher repeatedly strikes the group with an electric cattle prod delivering over 7000 volts of electricity. Once in the milking holding barn, the milkers take over forcing the cows into their milking stations. While the cows wait in this area they are forced to huddle in an extremely tight environment. Cows are pressed together firmly making it difficult to breathe and move. Cows succumb to overheating due to the lack of sufficient ventilation.

Within the milking barn are two pieces of steel rebar. The steel rebars are left out in plain sight and can be utilized by any of the employees to force the cows into their milking stations. Omar (Foreman) and an additional unidentified employee (hispanic male, approximately 5’7”, 175lbs and approximately 40yoa) are observed repeatedly and aggressively abusing the dairy cows. The unidentified hispanic male employee is seen punching and kicking several cows in the head. Both Omar and unidentified hispanic male will then pick up the rebar and begin to repeatedly strike the cows in the head and body. The cows at times, fall to the ground due to the force at which they are being struck. The unidentified hispanic male maliciously beats cows repeatedly at times for no apparent reason. The same employee was also observed striking a cow with the metal end of a milking suction cup. The metal suction cup is painted black and is made to appear as a baton.

The rebar is also used in a manner to spear the cow. The employees are seen on video impaling the rebar repeatedly into the cows torso and head areas. The force at which the cows are being struck possibly cause permanent damage to their bodies. The cows are in obvious pain and discomfort. They are subjected to this abuse and maltreatment three times a day. The foreman, Omar (who is under the direct supervision of Jacob Larson) would on numerous occasions direct the employees to include the ARM Investigator (to no avail) to strike the dairy cows with the supplied rebar and would encourage the continued torment of the cows. Due to the ARM Investigator not taking part in the cruel beatings, he was repeatedly reprimanded by the foreman (Omar).

The rebar is also used as a tool to shift cows into position once in their station. One end of the rebar is “U” shaped. Employees use this end to hook the legs of the cows. Due to the strength of the rebar and the cow kicking, the rebar begins to penetrate the cow and cause extreme pain and discomfort. Abrasions and welts can be seen on several of the cows legs due to this method of abuse.

While the cow is milking, it at times may kick. Employees are observed violently punching the cows in the udder. The udder of the cow is a very sensitive section and the cow clearly displays the discomfort and pain this action creates. Yet employees continue this type of abuse over and over. Milkers are also taught to grab the cows tail and forcefully bend/fold and possibly break the tail bones.

The described actions are done to all 8 groups to include pregnant cows. Our Investigator noted that the most abusive behavior is typically done to the heifer group. These cows have never entered the milking barn before. They are taught by the Larson employees how to enter this section by abusive and repeated torture. It should also be noted that Jacob Larson has been seen on many occasions within the Milking Barn during the times of the described incidents. At no time did he make any attempt to discipline the employees through suspensions, firing or notifying Law Enforcement to the criminal animal abuse. All employees at Barn #5 are under his direct control.
As new calves are born they are pulled from their mothers and placed into cramped enclosures (roughly 4x6 ft. pens). These enclosures are left outside in the harsh environment. Calves are observed laying in mud and laying in their own feces. The enclosures are not properly shaded. Most contain ripped or missing tarps which allow the heat of the sun to continuously over power the calves. Many calves succumb to the heat and die. At this point they are removed and left in the open visible to the public eye. Many calves, possibly 4 months old, were seen in enclosures which they have outgrown providing very little room for movement.

The Larson family has a strong presence within the University of Florida dairy field, to include a building named after the Larson family. Under the IFAS Dairy Unit standard operating procedure, it states “If you have to enter the cow platform use a calm easy voice and gesture to get cows to enter. DO NOT USE Force!!” To make matters worse, new employees are required to sign two separate documents pertaining to the abuse of animals. One document specifically reads “Animal abuse, harm and mishandling are unacceptable and will not be tolerated”. On the second document it states a quote “A man’s usefulness in a herd ceases at once when he loses his temper and bestows rough usage”. At no time has Jacob Larson followed his own Code of Conduct and continues to allow the mistreatment and constant abuse to his cow herd.

Not only has Jacob Larson neglected to act upon his own Code of Conduct, he has threatened to file a law suit against one of his former employees/ARM Investigator for attempting to disclose the maltreatment of the dairy cows. The image that is portrayed to the visiting public, to include school children, is that the cows are treated with care and concern. But, behind closed doors, dairy cows are beat, tormented and stabbed with rebar as well as being brutally kicked and punched repeatedly.

All milking cows at the Larson location are either there for life (4 to 5 years) or until they are sent to their demise. Due to the careless mismanagement by Jacob Larson these cows live in ongoing fear and torment. This is truly a sad existence for these animals. Furthermore employees are given bonuses for milk production. This leads them to push harder, creating a dangerous work environment for the workers and animals alike.

Southeast Milk collects milk from the Larson Dairy. It is then processed by them and transported to other plants such as Publix supermarkets. Southeast Milk is a major supplier to Publix which is one of the largest supermarket chains in the United States. The unnecessary abuse of dairy cows to produce more milk is inhumane and cruel.

CRIMES - VIOLATIONS
The 2017 Florida Statutes

Title XLVI
CRIMES

Chapter 828
ANIMALS: CRUELTY; SALES; ANIMAL ENTERPRISE PROTECTION

828.12 Cruelty to animals.—

(1) A person who unnecessarily overloads, overdrives, torments, deprives of necessary sustenance or shelter, or unnecessarily mutilates, or kills any animal, or causes the same to be done, or carries in or upon any vehicle, or otherwise, any animal in a cruel or inhumane manner, commits animal cruelty, a misdemeanor of the first degree, punishable as provided in s. 775.082 or by a fine of not more than $5,000, or both.

(2) A person who intentionally commits an act to any animal, or a person who owns or has the custody or control of any animal and fails to act, which results in the cruel death, or excessive or repeated infliction of unnecessary pain or suffering, or causes the same to be done, commits aggravated animal cruelty, a felony of the third degree, punishable as provided in s. 775.082 or by a fine of not more than $10,000, or both.

(a) A person convicted of a violation of this subsection, where the finder of fact determines that the violation includes the knowing and intentional torture or torment of an animal that injures, mutilates, or kills the animal, shall be ordered to pay a minimum mandatory fine of $2,500 and undergo psychological counseling or complete an anger management treatment program.

(b) A person convicted of a second or subsequent violation of this subsection shall be required to pay a minimum mandatory fine of $5,000 and serve a minimum mandatory period of incarceration of 6 months. In addition, the person shall be released only upon expiration of sentence, is not eligible for parole, control release, or any form of early release, and must serve 100 percent of the court-imposed sentence. Any plea of nolo contendere shall be considered a conviction for purposes of this subsection.

(3) A person who commits multiple acts of animal cruelty or aggravated animal cruelty against an animal may be charged with a separate offense for each such act. A person who commits animal cruelty or aggravated animal cruelty against more than one animal may be charged with a separate offense for each animal such cruelty was committed upon.

(4) A veterinarian licensed to practice in the state shall be held harmless from either criminal or civil liability for any decisions made or services rendered under the provisions of this section. Such a veterinarian is, therefore, under this subsection, immune from a lawsuit for his or her part in an investigation of cruelty to animals.

(5) A person who intentionally trips, falls, ropes, or lassos the legs of a horse by any means for the purpose of entertainment or sport shall be guilty of a third degree felony, punishable as provided in s. 775.082, s. 775.083, or s. 775.084, as used in this subsection, “trip” means any act that consists of the use of any wire, pole, stick, rope, or other apparatus to cause a horse to fall or lose its balance, and “horse” means any animal of any registered breed of the genus Equus, or any recognized hybrid thereof. The provisions of this subsection shall not apply when tripping is used:

(a) To control a horse that is posing an immediate threat to other livestock or human beings;

(b) For the purpose of identifying ownership of the horse when its ownership is unknown; or

(c) For the purpose of administering veterinary care to the horse.

FLORIDA DAIRY FARMERS CELEBRATES 30 YEARS WITH THE GATORS

Florida Dairy Farmers Celebrates 30 Years of Partnership

THANK YOU, FLORIDA DAIRY FOR 30 YEARS!
Founder of Larson Dairy.

FLORIDA AGRICULTURAL HALL of FAME

WHAT WE DO

The Florida Agricultural Hall of Fame honors men and women who have made lasting contributions to agriculture in this state and to mentoring of our youth, who represent the future of agriculture in Florida.

THANK YOU

The video profiles of the inductees on this website have been produced by the Institute of Food and Agricultural Sciences at the University of Florida. More information is available at: http://www.ifas.ufl.edu/
THE 2013
NATIONAL DAIRY
BEEF QUALITY ASSURANCE AWARD

Funded by the Beef Checkoff
General Code of Conduct

It is not possible to list all the forms of behavior that are considered unacceptable in the work place. The following are examples of infractions of rules of conduct that may result in disciplinary action, up to and including termination of employment.

- Abuse of livestock
- Sexual or other unlawful harassment.
- Falsification of timekeeping records.
- Working under the influence of alcohol or illegal drugs.
- Possession, distribution, sale, transfer or use of alcohol or illegal drugs in the work place, while on duty, or while operating employer-owned/leased/rented vehicles or equipment.
- Fighting or threatening violence in the work place.
- Possession of dangerous or unauthorized materials, such as explosives or firearms, in the work place.
- Boisterous or disruptive activity on The Company property.
- Poor attitude.
- Excessive personal telephone calls.
- Negligence or improper conduct leading to damage of employer-owned or customer-owned property.
- Insubordination or other disrespectful conduct.
- Violation of safety or health rules.
- Smoking in prohibited areas.
- Theft or inappropriate removal or possession of property.
- Excessive tardiness and absenteeism or any absence without being authorized.
- Unauthorized absence from work station during the work day.
- Unauthorized use of telephones, mail systems, or other employer-leased/owned equipment.
- Unauthorized disclosure of business “secrets” or confidential information.
- Violation of personnel policies.
- Unsatisfactory performance or conduct.
- Lack of wearing provided protective personal equipment.
I confirm my commitment to the highest standards of animal care and protection through the See it? Stop it! initiative.

In accordance with the See it? Stop it! values, I agree that:

1. Animal abuse, neglect, harm and mishandling are unacceptable and will not be tolerated.

2. Proper animal care is the responsibility of every individual who is around animals, including me.

3. I have an obligation to immediately report any signs of deliberate animal abuse, neglect, harm or mishandling to a supervisor or other individual responsible for enforcement of proper animal care.

I pledge my support of, responsibility for and commitment to the values of the See it? Stop it! initiative.

Name (printed) [Signature] Date: 8/16/17

a Center for Food Integrity initiative
OVERVIEW

The See it? Stop it! initiative confirms the culture of care that farm owners and managers demand of every person who comes in contact with their animals. See it? Stop it! highlights the integrity of the farm's philosophies on responsible animal care, helps staff understand their important role in animal protection and provides clear direction on how to report instances of animal abuse, neglect, harm or mishandling.

See it? Stop it! is not an animal care program or a certification program. It is a directive that requires immediate action if an employee suspects or witnesses animal abuse, harm, neglect or mishandling. The initiative encourages individuals working with or around animals to immediately report any signs of deliberate animal abuse, neglect, harm or mishandling to a supervisor or other individual responsible for enforcement of proper animal care, to ensure the concern is heard and addressed.

See it? Stop it! operates with the following values:

1. Animal abuse, neglect, harm and mishandling are unacceptable and will not be tolerated.
2. Proper animal care is the responsibility of every individual who is around animals.
3. Individuals working with or around animals have an obligation to immediately report any signs of deliberate animal abuse, neglect, harm or mishandling to a supervisor or other individual responsible for enforcement of proper animal care.
4. Thorough, ongoing and consistent employee training and re-training are critical to responsible animal care and are necessary components of a comprehensive animal care program.
5. Employers have an obligation to:
   i. Provide education and promote the importance of proper and responsible animal care.
   ii. Encourage and enable employees to immediately report of all signs of animal abuse, neglect, harm or mishandling.
   iii. Provide accessible and reliable contacts who have immediate authority to address reports of animal care concerns.
   iv. Take swift action to correct all instances of inappropriate animal care.
   v. Ensure employees who raise concerns in good faith are not penalized.
Larson Dairy, Inc.
Policy

"The rule to be observed in this stable at all times, toward the cattle, young and old, is that of patience and kindness. A man’s usefulness in a herd ceases at once when he loses his temper and bestows rough usage. Men must be patient. Cattle are not reasoning beings. Remember that this is the Home of Mothers. Treat each cow as a Mother should be treated. The giving of milk is a function of Motherhood; rough treatment lessens the flow. That injures me as well as the cow. Always keep these ideas in mind in dealing with my cattle."

W.D. Hoard

Abuse to livestock or equipment may result in immediate termination of employment. Any person observing abuse of livestock or equipment and not reporting the abuse will be disciplined or even terminated.

If you need help or observe abuse, please contact:

Jacob Larson

Please note: any person abusing animals is subject to prosecution according to Florida Law Statute 828.12 that includes fines up to $10,000 and/or imprisonment.

** This farm complies with standards of the SMI Animal Welfare Audit **

Understandings and Agreements

Please sign and initial with a witness present.

☐ I have received a copy of the Larson Dairy Inc. employee handbook. I understand that the handbook is not a contract and that my employment is "at will."

☐ I have received a copy of the safety policy for Larson Dairy Inc. I understand the policy and agree to follow it. I understand that all accidents must be reported to my supervisor, even if I am not the one involved.

☐ I have received a copy of the drug free workplace policy for Larson Dairy Inc. I understand the policy and agree to follow it. I understand that I will be drug tested and that it is a condition of employment to refrain from using drugs on or off the job.

☐ I have received a copy of the sexual harassment policy from Larson Dairy Inc. I understand that this policy will be enforced. I know that I should talk to my barn manager, the personnel manager or the president if I have a complaint.

☐ I have received a copy of the workers compensation health services coverage plan from Larson Dairy Inc. I understand the plan and my responsibilities should I suffer a work-related injury. I understand that treatment received outside of the agreement of the health care administration of workers compensation program will not be compensated unless authorized by the Mutual Insurance Company before treatment.

☐ I have received a copy of the housing rules and regulations from Larson Dairy, Inc. and agree to:

PO Box 43790
Belleview, FL 34421

Animal Recovery Mission (ARM Investigations) is a 501c3, non-profit organization, dedicated to supporting animal welfare and eliminating animal cruelty worldwide.

ARM Investigations recently conducted an investigation utilizing undercover investigators and surveillance equipment to gather information on Larson Dairy. Investigators worked alongside employees of Larson Dairy. Some of the violations documented, and soon to be publicly released, were as follows:

- Constant physical maltreatment and abuse of dairy cows (punching, kicking, whipping, stabbing)
- Cow holding areas between living quarters and milking barn so overly-crowded that cows can’t even breathe deeply enough to expand their lungs
- Cows brought into milking stalls being tormented, whipped, kicked, beaten and stabbed with steel construction rebar
- Milking system (Barn 5 of Larson Dairy) is extremely confusing to cows, causing distress and confusion in cattle and angry, abusive, violently-reactive behavior in workers
- Prior to being hooked up to machines for milking, cows being repeatedly punched, hit, and stabbed with sharp steel rebar in swollen, mastitis-filled udders
- Hydraulic systems intended to be used to confine cows prior to milking, being misused to hang the confused cows to punish, abuse and torture the animals, resulting in horrible injuries and potential death of cows
- Cows being beaten into submission with military police-style baton-like devices
- Workers bending cow tails to the point of excruciating tail fractures for non-compliance
- Open electric receptacles expose live wires near water, cows and workers in milking barn, and other buildings across the farm, risking electrocution and violating code
- Improper footing in milking barn is general safety issue to both animals and workers
- Ramp leading cows from holding to milking area climbed by cows 3x daily is treacherously slippery and dangerous
- Neglected, sick and malnourished calves being held in approximately 4’x6’ wire enclosures, with completely insufficient roofing or covering, providing no shelter or protection from

University of Florida honors Red Larson

Dec 25th, 2016 · by Okeechobee News · Comments: 0

GAINESVILLE – Louis E. “Red” Larson was presented with the Distinguished Achievement Award by the University of Florida at the 10 a.m. fall graduation ceremony on Dec. 17.

The award is one of the highest honors bestowed upon a UF supporter. The award recognizes exceptional achievements of the individual in his or her chosen profession, demonstrated leadership, and other exemplary accomplishments that merit special recognition by the university. Larson was nominated for the award by the UF College of Agricultural and Life Sciences (CALS).

Mr. Larson’s first job as a Miami Daily News paperboy in the 1930s enabled him to purchase his first cow.

He worked on weekends and during summers to hand-milk cows for a local dairyman. In 1947 he began his own dairy farm and now Larson Dairy, Inc. is one of the largest dairy operations in the Southeast, producing more than 200 million pounds of milk annually.

“Through (Larson’s) hard work, entrepreneurial spirit, business ability and willingness to embrace modern science and cutting edge management practices, he built Larson Farms from the ground up by leading people and building a team of employees that believed in Larson and his vision for modern dairy operation,” said the Executive Vice President of the Florida Cattlemen’s Association Jim Handley in his letter of support for Mr. Larson’s nomination.

Mr. Larson became an early adopter of improved feeding, housing and milking methods, which led to a close working relationship with the UF Institute of Food and Agricultural Sciences. He and his family are generous supporters of the UF/IFAS animal sciences department, Florida 4-H and Florida Agricultural Experiment Station.

“(Larson’s) farm is our laboratory for dairy science and the UF veterinary school,” said UF/IFAS animal sciences professor Peter J. Hansen. “A lot of people have been able to complete their degrees because they have been able to conduct experiments at Larson...
Dairy. The Dairy Science building and my teaching position are both named after him, and I'm very proud of that.”

Among his many accomplishments, Mr. Larson was the only Floridian to serve as president of the National Milk Producers Federation, helped develop present-day milk marketing techniques, and was elected to the Florida Agricultural Hall of Fame and Dairy Hall of Fame. He was named an Honorary Alumnus by the UF Alumni Association in 2006.
