FELLSMERE, Fla. (CBS12) — A farm in Fellsmere is accused of being an illegal slaughterhouse operation. The Animal Recovery Mission (ARM) says it conducted an undercover investigation starting in June 2018 at a farm known as "Black Cloud" along County Road 507.

ARM says its investigators captured video showing "extreme abuse and inhumane treatment" committed by two employees. ARM also said the farm sold animals to be used in rituals.
